

## **Graduate School Seminar Series: Responsible Conduct of Research (RCR) Seminars**

### **Record Keeping in Research Laboratories**

November 3, 2009, 2:00-3:30 pm

**Location:** Engineering Centers, Tong Auditorium

**Presenter:** Cheryl Scadlock, WARF's Information Specialist

**Description:** "Why, what and how" of maintaining research laboratory notebooks are the topics covered in this seminar. Also discussed are the issues related to saving, accessing, and archiving electronic research data.

### **Ownership of the Results of Research**

November 5, 2009, 10:00-11:30 pm

**Location:** Clinical Sciences Center, G5/119

**Presenter:** Steve Harsy, Assistant Dean, School of Medicine and Public Health

**Description:** Ownership rights to the products of research will be discussed. These products include raw data, results, and any arising intellectual property, such as patentable inventions and copyrightable software. Ownership rights will be dependent upon who is sponsoring the research, and various scenarios will be presented to illustrate possible outcomes.

### **Authorship, Peer Review, and Responsible Publishing**

November 10, 2009, 1:00-2:30 pm

**Location:** Clinical Sciences Center, G5/119

**Presenter:** Sharon Dunwoody, Evjue Bascom Professor of Journalism & Mass Communication, Associate Dean for Social Studies, Graduate School

**Description:** At the most basic level, scholars publish for a living. But if not handled carefully and thoughtfully, many aspects of publishing can engender tension and disagreement. This session will explore a number of those aspects from a responsible-conduct-of-research perspective.

### **Mentoring Relationships**

November 12, 2009, 10:00 -11:30 pm

**Location:** Education Science, Rm 253

**Presenter:** Beth Graue, Director, Wisconsin Center for Education Research, Professor, Curriculum and Instruction

**Description:** This seminar will focus on mentor-trainee responsibilities for researchers in the social and behavioral sciences. Trainees refer to individuals working under the supervision of an experienced researcher (ranging from undergraduates to postdoctoral fellows or research scientists).

**GRADUATE SCHOOL**  
University of Wisconsin-Madison

500 Lincoln Drive, Madison, Wisconsin 53706 • 608.262.2433

### **Lessons from IceCube: Managing Large Collaborative Projects**

November 17, 2009, 2:00-3:30 pm

**Location:** UW Biotech Center Auditorium

**Presenter:** Bob Paulos, Ice Cube Project

**Description:** This session will use the experiences and lessons learned from the IceCube project to examine some of the unique challenges that come about when engaged in a large collaborative effort.

### **Research Misconduct**

November 19, 2009, 1:00-2:30 pm

**Location:** Clinical Sciences Center, G5/119

**Presenter:** Bill Mellon, Institutional Official, University of Wisconsin-Madison  
Professor of Pharmacy and Associate, Dean of Research Policy, Graduate School

**Description:** Both UW and Federal requirements for judgment of research misconduct and policies will be addressed. A case study approach will be used to amplify aspects of research misconduct.

### **Outside Activity Reporting (OAR) and Financial Conflict of Interest**

November 24, 2009, 2:00-3:30 pm

**Location:** Engineering Centers, Tong Auditorium

**Presenters:** Kathy Irwin, Administrative Legal Services, Brian Fox, Professor, Biochemistry, and Kelly Ullrick, Office of Research Policy in the Graduate School

**Description:** Federal grant-funding agencies and the State of Wisconsin have policies addressing conflicts of interest between the public and private activities of faculty and academic staff.

### **Mentor/Trainee Responsibilities**

December 1, 2009, 1:00-2:30 pm

**Location:** Clinical Science Center, G5/119

**Presenters:** Chris Pfund, Delta, Jim Wells and Eileen Callahan, Graduate School

**Description:** This is an interactive seminar that will focus on mentor-trainee responsibilities for researchers in the biomedical sciences. Trainees refer to individuals working under the supervision of an experienced researcher (ranging from undergraduates to postdoctoral fellows or research scientists) involved in a program that provides for the development of additional skills and acquire experience in the given professional field or in the conduct of research.

**Separate registration for each presentation is required.**
